PANTHER VISION®

Uncommon Solutions for Common Problems™

A eureka moment can occur at any time, and for the founder of Panther Vision that moment came while sailing at night into a sudden storm. With hands busy frantically working the rigging and wheel, he was forced to hold the small flashlight that provided the only illumination by placing it in his mouth. Clearly, there had to be a better way, and with a flash of inspiration, the Panther Vision lighted cap was born.

Our latest POWERCAP® advancements feature increased lighting power with user selectable lighting control, rechargeable battery technology that respects our planet while being the most economical to own and operate. The batteries can be recharged up to 750 times with any USB power source with the supplied charging cable.

Further developments in our rechargeable FLATEYE™ Unround flashlights, ADAPTEV™ Smart Headlamps, POWERPAW™ waterproof handwarmers, and accessory lights feature improved performance at lower costs. The POWERCAP® ICE is our latest innovation that keeps you cool and comfortable for hot summer days and nights.

OUR PROMISE TO YOU

Our patented designs offer you unparalleled performance at a great value, so that you can count on our products to perform when you need them. All Panther Vision products are backed by a limited lifetime warranty which means our quality and performance is backed up by more than just words.

FLAT EYE™

THE UNROUND FLASHLIGHT

While most flashlights are adaptations from the original round shape design to accomodate replaceable batteries and incandescent light bulbs, we started with a clean sheet of paper and a custom designed LED lighting unit.

The FLATEYE shape started as a means to incorporate tandem or quad batteries for longer runtimes. That inspired a pistol grip that added comfort and wouldn't roll away when set down.

Over time, we have enhanced the design to include rechargeable lithium polymer battery technology that respects our planet and is more economical to operate and own. The average number of recharge cycles is over 500 with any USB power source and our included USB charging cable. This is backed up by our limited lifetime product warranty.

BRANDING OPTIONS

- 48 piece MOQ for laser engraving, one color pad print, or 4c UV print. Logo area varies by model and imprint location.
- Custom logo domes available for factory orders, 576 piece MOQ.
- MOQ for domestic decorating is 48 pieces or 1,008 for custom factory orders.

The next essential piece of gear to warm up your adventure!

- IP67 WATERPROOF** – Patent Pending Water-proof Design: Rated for 30 minutes submerged in water up to 1 meter
- 360 DEGREE HEAT** – Complete Exposure of 3 Heat Settings: Heat within seconds for maximum comfort and battery life
- CONVENIENT SIZE** - Fits comfortably in hands and pockets
- RECHARGEABLE** – USB-C charging port for over 6-9 hours of battery life (Lithium Polymer Battery). Fast Recharge
- 3 HEATING MODES** – with Battery Level Indicator
- SILICONE MOLDED** – Premium Grade Silicone: Made to withstand harsh use in the cold and on any expedition into the extreme outdoors

CUSTOM FACTORY ORDERS

Specs:

- Minimum order quantity is 576 pieces, same style, same color and same decorating
- Quantities must be in increments of 48 pieces above the MOQ
- PMS color matching for embroidery thread
- Custom cap colors are based upon fabrics available in the local markets at the time of order
- PMS color matched fabric is available for orders of 3,250 pieces or more, add 30 days to standard lead time to custom dye and process fabric. Lower quantities available at an upcharge
- Decorating options include embroidery, silk screening, woven labels and fabric appliques priced per request
- Standard packaging for POWERCAP:
 - 48 piece masters with (8) six piece inners, 22.44" x 16.54" x 14.76"@ 16 lbs.
- Standard packaging for POWERCAP® Beanies:
 - 48 piece master cases with (8) six piece inners, 23.75" x 19.75" x 8.25 @ 15 lbs.
 - Optional custom bulk packaging upon request
- Individual poly bags/custom labeling/bar coding/carton markings upon request at additional cost
- Drop shipments available for additional cost, MOQ = inner pack
- Lead-time is approximately 90 days

Terms:

- A 50% deposit is required with your order
- Pre-production sample will be provided in approximately 4 weeks
- No changes after approval
- Balance due N30 days with credit approval or prior to shipment
- FOB California or available for factory pick-up in China
